Education Level

Universitas Tarumanagara - Jakarta

Aug 2021 - Feb 2025 (Expected)

Undergraduate in Information Systems, 3.91/4.00

Achievements

International Student Exchange Program Awardee

- This International Student Exchange Program is held between Universitas Tarumanagara and INTI International University. Participating in student exchange activities opened the door to new cultural exploration and opportunity to experience daily life there and study a lot of different classes. This not only helped me understand their culture more deeply, but also allowed me to appreciate differences and increase tolerance.

3rd Place in Humanities Festival Scientific Article Competition

- Won 3rd place in Tarumanagara University Scientific Article Competition with the title of "Membangun Sikap Bela Negara Generasi Muda Utara Untuk Memajukan Bangsa Indonesia".

Projects

- **Portofolio Website** (2023): A portfolio website designed to showcase and display one's work, projects, skills and achievements. This website is built using a popular JavaScript framework, React JS.
- **CashWise** 🟢 (2023): This project was created to fulfill the Mobile Programming course exam grade by creating an interface application for financial tracking so that it can monitor the flow of transactions both income and expenses through history data and graphs displayed using Flutter.
- **Symptomize** 🟢 (2023): In order to participate in the Gemastik 2023 competition, my team and I designed a mobile-based prototype for disease symptom tracking to help track, manage, and know their health by recording and analyzing based on the symptoms experienced and analyzing based on the symptoms experienced.
- **FTIEDU** 🟢 (2023): A mobile-based prototype designed to make it easier for students, lecturers, and employees of the Faculty of Information Technology Tarumanagara University to provide information about study programs, curriculum, class schedule, registration requirements, and other academic information.
- **HealthyMe** 🟢 (2022): In order to participate in the GEMASTIK 2022 competition, my team and I created a mobile-based prototype that became a marketplace platform that became a center for buying and selling healthy food and became a new opportunity for SMEs who have businesses in the field of healthy food.
- **Travel Guide Website** 🟢 (2022): A website project that created to fulfill the Web Development course exam grade by creating a travel guide website.
